I contenuti del sito Trattamenti Laser sono tratti dai seguenti Testi

Bibliografia e letture consigliate per approfondimento

Peter Bjerring, Kaare Christiansen & Agnata Troilius – Intense pulsed light source for treatment of facial telangiectasias – J Cosmetic & laser Ther 2001;3:169-173
PhotoDerm – Effective treatment of deep and large vessels with Vasculight – Application notes Volume 1 Number 6
Marc Troxeller – One Clinic's Experience in the treatment of varicose veins and leg telangiectasias with the Vasculight intense pulsed light/Nd:YAG laser source – Clinical application notes Vol.8 No.3
Careen A. Schroeter et al. – Clinical significance of an intense pulsed light source on leg telangiectasias of up to 1 mm diameter – European J. Of Derm. 1997;1:38-42
Christian Raulin, Robert A. Weiss, Matthias P. Schonemark – Treatment of essential telangiectasias with an intense pulsed light source (Photoderm VL) – Dermatol Surg 1997;23:941-946
Christian Raulin, Saskia Werner – Treatment of venus malformations with an intense pulsed light source (IPLS) technology – a retrospective study. – Laser Surg Med 1999;25:170-177
Marla C. Agermeier – Treatment of facial vascular lesions with intense pulsed light – Journal of Cutaneous Therapy 1999; 1:95-100
David Wilder – Vasculight Experience with over 1000 patients: Two Year Study of cutaneous vascular lesions treatment with an intense pulsed light and laser source – Clinical application notes Vol.8 No.2
Javier Moreno Moraga et al. – European multicenter study: Photoderm Vasculight for the treatment of varicose reticular veins and leg telangiectasias, as well as other vascular lesions – Clinical applications notes Vol.8 No.1
Amy Forman Taub, Erin DeVita – Treatment of rosacea With intense pulsed light Photorejuvenation – 2002 LaserNews.net, Inc.
Peter Bjerring & Kaare Christiansen – Intense pulsed light source for treatment of small melanocytic nevi and solar lentigines – Journal of Cutaneous Laser Therapy 2000;2:177-181
Ingrid Kautz & Gerd Kautz – Terapia precoce nel trattamento degli angiomi pediatrici con il sistema Vasculight IPL (luce pulsata ad alta intensità)/sorgente laser Nd:YAG – Clinical applications notes Volume 8 No.4
Raulin Christian et al. – Treatment of Port Wine Stains with a non-coherent pulsed light source (PhotoDerm VI) – A Retrospective Study – Archives of Dermatology 1999; 135:679-683,06/99
Peter Bjerring, K. Christiansen & A. Troilius – Intense pulsed light source for the treatment of dye laser resistant port-wine stains – J. Cosmetic & laser Ther 2003; 5:7-13
Sandeep Cliff & Klaus Misch – Treatment of mature port wine stains with the photoderm VL – Journal of Cutaneous Laser Therapy 1999; 1:101-104
Franklin Johnson & Maria Dovale - Intense pulsed light treatment of hirsutism: case reports of skin phototypes V and VI - Journal of Cutaneous Laser Therapy 1999; 1:233-237
Agneta Troilius & Carl Troilius – Hair Removal with a second generation broad spectrum intense pulsed light source – a long-term follow-up - Journal of Cutaneous Laser Therapy 1999; 1:173-178
Mohammed Radmanesh et al. – Leukotrichia developed following application of intense pulsed light for hair removal – Dermatol Surg 2002;28:572-574
Christian Raulin et al. – Effective treatment of hypertrichosis with pulsed light: a report of two cases – Ann Plast Surg 1997;39:169-173
Hortensia Germa, Barbel Greve, Christian Raulin - Facial Rhytides – Subsurfacing or Resurfacing? A review – Laser in Surg and Med 2003;35:405-412
Barbel Greve, Christian Raulin – Professional errors caused by lasers and intense pulsed light technology in dermatology and aesthetic medicine: preventive strategies and case studies – Dermatol Surg 2002;28:156-161
Christian Raulin, Hortensia Germa, Barbel Greve – IPL Technology: A review – Laser in surgery and Medicine 2003;32:78-87
Piero Campolmi, Benedetta Brazzini, Ilaria Ghersetich – I laser in dermatologia: concetti introduttivi – Kosmè 2002;1:6-14
Elisabetta Brazzini et al. – Trattamento laser di lesioni vascolari cutanee - Kosmè 2002;3:8-18
Piero Campolmi, Paolo Bonan, Giovanni Cannarozzo – Laser e sorgenti luminose in dermatologia (manuale di applicazioni pratiche) – Masson Editore (2003)
Christian Raulin et al. – Treatment of benign venous malformations with an intense pulsed light source (Photoderm VL) – Eur J. Dermatol 1997;7:279-282
Gerardo A. Et al. – Side-effects after IPL Photoepilation – Dermatol Surg 2002;28:11-31

Daniel Laury – Intense pulsed light technology and its improvement on skin aging from the patients’ perspective using photorjuvenation parameters – Dermatology online journal 9(1):5
Josep Del Hoyo i Calduch – Medicina e salute (Edi Ermes Grandi opere). Vol 1 1993;7:181
Elvio Alessi, Ruggero Caputo – Dermatologia e malattie a trasmissione sessuale (Raffaello Cortina Editore). 1999;3:87
Suzanne L. Kilmer, M.D. – 3 months clinical results using the CoolGlide long-pulse Nd:YAG laser for hair removal – Laser and Skin Surgey Center of Northern California
Nathalie Fournier et al. – Hair removal with Athos Nd:YAG 3.5ms pulse laser: a 3 months clinical study. – Journal of cutaneous laser therapy 2000;2:125-130.
Pier Luca Bengini et al. – Long term epilation with long pulse Neodimium:YAG laser – Dermatol Surg 1999;25:175-178.
Susanne Lorenz et al. – Hair removal with the long pulse Nd:YAG laser: a prospective study with one year follow-up – Laser Surg.Med. 2002;30:127-134.
Marc Troxler – One clinic’s experience in the treatment of varicose veins and leg telangiectasias with the vasculight intense pulsed light/Nd:YAG laser source – Clinical Application notes Vol.8 No.3.
A. Major et al. – Nd:YAG 1064 nm in the treatment of facial and leg telangiectasias – JEADV 2001;15:559-565.
Sadick N. – Long term results with a Multiple Synchronized-Pulse 1064nm Nd:YAG laser for the treatment of leg venulectasias and reticular veins – Dermatol. Surg.2001;27:365-369.
Neil S.Sadick et al. – Clinical and pathoèhysiologic Correlates of 1064nm Nd:YAG laser treatment of reticular Veins and venulectasias. – Arch Dermatol. 2001;137:613-617.
Ross, E.V. et al - Treatment of pseudofolliculitis barbae in skin types IV, V, and Vi with a long-pulsed Nd:YAG laser. J Am Acad Dermatol 2002 aug; 263-70.
Piero Campolmi et al. – Laser e sorgenti luminose in dermatologia, casa editrice Masson (2003)
